Latest News

The Transit of Venus is a once in a lifetime experience...in fact, only once in over 100 years!

On 5th June, the day before the Transit of Venus, Harry, Miani and Rupert interviewed Darren Bellingham, from the Astronomy Society of Victoria to find out about this incredible celestial event. The team were also lucky enough to witness this amazing, once in a lifetime transit for themselves at the Melbourne Observatory, where amateur astronomer Del Smith had his telescope linked to his laptop, mapping the transit of Venus across the sun. *"It was so awesome to be able to see the Transit of Venus with my own eyes. It's something I will be able to tell My grandchildren about one day! Thanks so much Del."* Miani

The next Transit of Venus is not until 2117!

SwitchOn Radio with Clayton North Primary's 'Marvelous Melbourne Crew'

Proudly sponsored by The City of Monash

Top: Dali, Labib, Sarah M, Gracey, Aliya, Quan & teacher Ken
Bottom: Levi, Sarah D, Saina, Hidayah and Tiara

Years 5 & 6 students from Clayton North Primary School produced a great show on 'Marvellous Melbourne' and some of the fun places to visit and enjoy international cuisine in their 'home zone' of Clayton in the City of Monash. A big thank you to Monash City Council for sponsoring this episode of 'SwitchOn Radio' (Students With Initiatives To Create Humanitarian Outcomes Now). This unique program provides an exciting, in depth media experience for young people. Dates are now open for 2013, so if your school would like to find out more about this excellent enrichment program for students from years 4-10, contact Vianne Mischon on 0421 737 464 or email info@wwmn.net.
